## DISTRIBUTOR OPPORTUNITIES

The Phoenix Classic Spray Cleaning System is a very innovative floor care maintenance program. It offers very low noise levels, 95% less dust than high speed systems and greatly reduced re-coat cycles. Couple these features with no wet floors and extremely reliable equipment and this program is a winner. The system is over 20 years in the making and will allow you to offer your customers one of the simplest, most cost efficient ways to keep beautiful floors.

Becoming a Phoenix Distributor will allow you to offer an alternative to the typical auto-scrub/dry burnish systems. An alternative that many feel is better.
